

Please reject Petition 04-160 (HR-4026). We enjoy the services we receive from satellite radio. We choose to pay for the programming as we are able to receive clear signals and more variety than we get with normal airwaves. We do not believe that the NAB should choose what we are willing to pay to listen to. Please reject Petition 04-160 (HR-4026). We support satellite radio and satellite tv.
